

TC Unique Events by Neighborhood Council District (draft April 2020, data not normalized, for review purposes only)

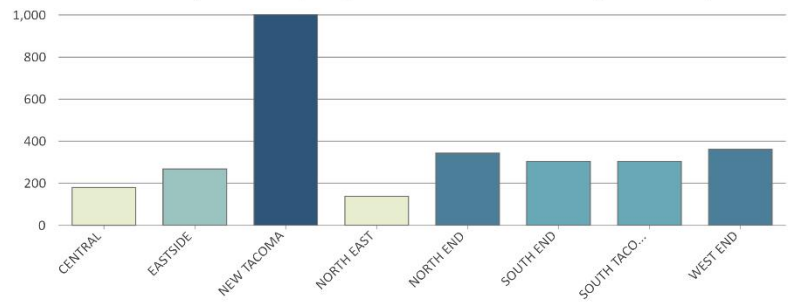

Note: event data do not represent total of all activities. Repeating events such as classes with multiple meetings, performances with multiple showings, activities with multiple dates, etc. have been filtered. Only the first occurrence of each such event is represented here.

These data represent the total number of non-normalized unique events that were collected by the AMP team during the Tacoma Creates environmental scan. Event dates range from 2017 through 2019.

Total Unique Events by Neighborhood Council Districts (~2017-2019)
